### **Covid regulations:**

The government has removed all domestic restrictions that were introduced due to the Covid pandemic!

We acknowledge that the best way to protect oneself is to have a vaccination. Everyone in the UK has had the opportunity to get jabbed and we are very grateful that – as far as we can see – this has been wholeheartedly welcomed by our members.

Although all restrictions are eased we realize that people are still anxious and mindful not to catch the virus.

Therefore we would like to retain the following safety measures in our churches:

- we do provide hand sanitizers and encourage all visitors to use them
- we ask visitors to wear a face covering during the service
- singing is allowed during the service
- we reduce the frequency of our Holy communions and we celebrate with individual cups
- we ventilate our churches (by opening doors and windows before and during services)
